

How to setup a document

Philip Ligthart

June 18, 2024

1 Introduction

This document describes how to set up a document in L^AT_EX.

1.1 Background

Here we will talk about the background of the document. We will also show how labels work with sections.

1.1.1 Motivation

This is probably the lowest level of sectioning you will realistically need. Here we refer to the test setup in section 2.1.

1.2 Organization

This is the second subsection.

2 Methods and materials

This is the methods section.

2.1 Test setup

This is the test setup we used in the experiment. We can also refer to previous sections, see for example 1.1.
